KEEP AND MAINTAIN THIS SAFETY AND INSTRUCTION MANUAL IN A SAFE LOCATION FOR FUTURE REFERENCE.

USE AND STORAGE

Step comes fully assembled. To use, remove zip ties and rotate legs outward until they stop.

The feet of the legs are designed to fit into the center squares of the platform. For safety reasons, they will not fit in the outermost squares. The step can be placed anywhere on the platform as long as the feet fit securely in the squares.

*When placing the steps widthwise the feet will not fit where joist hangers attach to platform.

The step is designed to stow three M249 ammo cans under the step. See pictures.

To stow the legs, lift the step up and flip upside down. Rotate legs until they are parallel with step surface.

Step can be stowed on its side or vertically anywhere against the wall or the rail or off the platform.

PROPER CARE AND MAINTENANCE

Follow instructions when assembling and disassembling. Inspect for defects (damage, rot, corrosion, cracks, etc.) before every use is required. Do not use if damage is detected or suspected.

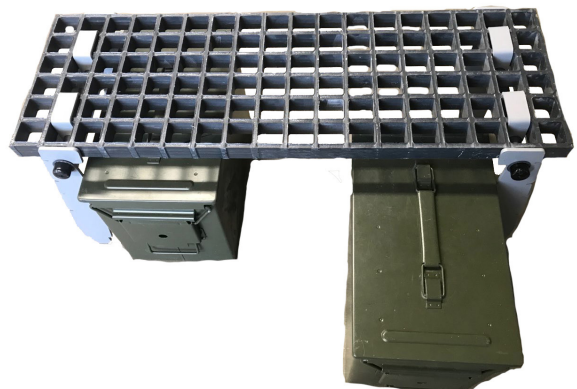

Inspect for rust. If found, treat and coat area with lubricant.

Step with legs in stowed position.

Step with legs extended.

Ammo can storage.
